

LEED Specification Sheet for New Construction and Major Renovation

8/22/2023

To Whom It May Concern:

This letter has been written to verify the VOC content of Titebond Fast Grab FRP Adhesive. The current VOC content of this product is 27.04 g/L. This amount is less than the current VOC content limits of California's South Coast Air Quality Management District (SCAQMD) Rule #1168 for Dry Wall and Panel Adhesives which has a VOC content limit of 50 g/L.

Additionally, Titebond Fast Grab FRP Adhesive has passed California Department of Public Health CDPH/EHLB/Standard Method Version 1.2, 2017 testing (Emission testing method for CA Specification 01350). This is a requirement for obtaining LEED v4 low emitting materials credit. Please note that the VOC emissions certificate was issued on August 18, 2023.

These statements are based on the Titebond product referenced above and the formulation of the product and the regulations in place according to the date of this letter. Please use this letter for specification purposes and call 1-888-533-9043 with any further questions.

For a copy of the SDS or TDS, please visit www.Titebond.com.

Sincerely,

Ben Ward
